

EXT. OCEAN BEACH- GOLDEN HOUR/EARLY SUNSET

REY stands facing the setting sun. *Binary Sunset/ "Jedi Theme"* music rises. She straightens her stance, continuing her stare.

KYLO (O. S.)

You're playing the theme song in your head aren't you?

The music stops as Rey turns, revealing Kylo standing behind her. Rey fully faces him.

REY

You. (beat) Ready for another go?

KYLO

You still want to kill me. I had hoped you'd join me by now.

Rey unclips her lightsaber from her belt.

REY

I'd never join you.

She ignites her saber.

KYLO

So be it.

He unclips and ignites his lightsaber in one fluid motion. Fighting music rises up as Rey takes three quick steps and attacks Kylo who ducks. He spins around and up to meet her again. They continue like this for a few jabs.

KYLO

I'll show you the power of the darkside!

Kylo force pushes Rey. She falls back, on the sand, into the camera then rolls off-

HARD CUT TO:

EXT. PRESIDIO WOODS- SUNSET

She rolls twice more, before coming to a stop in the dirt. She looks, confused, at the leafy ground. She then notices her lightsaber a few feet away. She throws out her arm to call the saber to her.

It slowly slides across the ground, before jerking backwards, away from Rey. Her eyes widen. Kylo, hand also outstretched reaches for the saber now floating mid-air. She stands, keeping her grip.

Kylo slowly pulls his hand, and the saber towards him. Rey tugs it back, pulling Kylo forward, but he keeps his stance.

KYLO

You should have taken my hand.

Rey leans her whole body backwards, pulling with all her might, the lightsaber moves slightly in her direction, but Kylo keeps his grip.

She strains, then looks at her hand, then at Kylo.

She lets go.

The saber crashes back. Kylo falls back, the saber barely misses his face. Rey takes her opportunity and rushes forward. She jumps over Kylo, as he swings and misses. She picks up her saber. She stands and faces Kylo, who waits for her.

REY

This ends here.

She twirls the saber around herself. Kylo rushes forward. She steps to the side and blocks him. They spin, and Kylo crosses the camera, becoming a wipe-

HARD CUT TO:

EXT. BERKELEY MARINA- DUSK

He spins his saber. Then arches up, bringing down his saber- Rey catches Kylo's saber arm midair. He holds her opposite arm down. They lock eyes. Rey's face contracts.

She spins out of his grip, knocking his saber out of his hand. Using both hands she force pushes him to the ground. She spins her saber and makes to stab him through the chest with it- but stops suddenly.

They both breathe heavy. Kylo looks up at her through his mask. She looks down at him, her face peering over her lightsaber.

REY

I did want to take your hand... Ben's hand.

She pulls away from Kylo, who remains unmoving on the ground. She gives him one last look. She retracts her lightsaber as she turns away from him. Kylo, stunned, watches her run off from the ground.
